

On 10/28/2010 our campaign committee received a \$2500 contribution from the Dealers Election Action Committee. As a result of a clerical error, this contribution was inadvertently recorded on the 48-Hour Report under the National Academy Foundation. Upon filing our post-general FEC report, this error came to light and was corrected on Form 99 (submitted on 12/1/10) to reflect that we never received a contribution from the National Academy Foundation, and that the contribution in fact came from the Dealers Election Action Committee.

Response to the duplicate 48-Hour notices received:

From 10/14/10 - 10/30/10 our campaign committee filed 48 hour notices daily, rather than every 48 hours. In doing so, a few of our donations appeared twice on the FEC 48-hour notices. The contributions listed below reflect the correct date and amount (which is also reflected in the post general report).
